Dear Parents,

Good wishes for annual examination of your ward.

Together we are upbringing these children as 21st century kids. Let us make this exam a festival for your child and help him/her to get rid of exam fear.

Their future may not always bother too much about the marks they get in school. Instead the time will demand from these children to have skills and values. They will be required to be creative, innovative, critical in their thinking, to have good communication skills and problem solving abilities. So do not pressure them for marks but encourage them for hard work and better performance. You are requested to focus on their good diet, sound sleep and comfortable environment for studies.
